

# HAPPY AK

## TRANSMITTERS WITH DOUBLE CODING, ADVANCED ROLLING CODE AND FIXED CODE

Compatible with the most common fixed code transmitters

2 and 4 channels

### Training

Guide to the procedure of copying fixed codes and enabling ARC codes. Watch the video.

- 2 or 4-channel transmitter with double coding, Advanced Rolling Code and Fixed Code, with wine-red interchangeable cover with soft lines and essential design
- The new ARC coding guarantees maximum security due to the length of the transmitted code (128 bit) and the high number of possible combinations
- The transmitter allows expanding the convenience of remote duplication (without having access to the installation), typical of Fixed Codes, even with ARC. HAPPY.AK transmitters can become duplicates of fixed code transmitters, but they can also be enabled to operate systems with Advanced Rolling Code
- It is possible to associate each button with different types of coding (Advanced Rolling Code or Fixed Code) independently
- Covers in three different colours are available as accessories, respectively for the version with 2 or 4 channels (FLIP.2/FLIP.4)
- Easy access to the battery and to the transmitter type, located on the front under the coloured cover

#### FLIP.2

Package of 2-channel covers for HAPPY transmitters. Contains 10 pieces for each available colour: orange, light blue and yellow. **Package of 30 pcs.**

#### FLIP.4

Package of 4-channel covers for HAPPY transmitters. Contains 10 pieces for each available colour: orange, light blue and yellow. **Package of 30 pcs.**

#### ONE.2WO

433.92 MHz receiver with power supply 12÷28 VDC / 21÷28 VAC, 2 channels with triple coding: Advanced Rolling Code, Rolling Code and Fixed Code, with outdoor IP54 box. 512 memorisable codes.

#### ONE.2WB

433.92 MHz receiver with power supply 12÷28 VDC / 21÷28 VAC, 2 channels with triple coding: Advanced Rolling Code and Rolling Code, in box. 512 memorisable codes.

#### ONE.2WI

433.92 MHz receiver with power supply 12÷28 VDC / 21÷28 VAC, 2 channels with triple coding: Advanced Rolling Code and Rolling Code, plug-in. 512 memorisable codes.

#### ONE.4WB

4-channel receiver with full-range power supply (115-230 VAC/DC) and triple coding: Advanced Rolling Code, Rolling Code and Fixed Code, with outdoor IP54 box. 512 memorisable codes.

**HAPPY.2AK**

2-channel transmitter with Advanced Rolling Code and Fixed Code.

**HAPPY.4AK**

4-channel transmitter with Advanced Rolling Code and Fixed Code.

**AUTOMATISMI BENINCÀ Spa** • Via del Capitello, 45 • 36066 Sandrigo (VI) ITALY • T +39 0444 751030 • sales@beninca.com

**CALL**

Four-channel GSM receiver, up to 4 automations control without limits of distance. Makes it possible to use the device by means of a mobile telephone.

**MEM2048**

Additional memory for up to 2048 codes. For receivers of the ONE series.

**AWO**

433.92 MHz antenna for external installation with IP54 box, fitted with shielded RG58 5 m cable.

**RG58 MT5**

AWO antenna cable L = 5 m.

**AW**

433.92 MHz stylus antenna for external installation, equipped with a shielded 3m RG58 cable.

**BT12**

12 V Battery, for transmitter. Available in 50 pcs packing.
